#### La patinoire Ice Square

Le projet de patinoire Ice Square est né du constat qu'il n'existe pas de patinoire aux normes olympiques ni en Région Bruxelloise ni en Wallonie. Et ce malgré la présence de la Belgique dans le groupe restreint des nations fondatrices de la ligue de Hockey sur glace. Ceci se traduit par une désaffection croissante des jeunes bruxellois pour ce sport. Par ailleurs, le succès de la patinoire du Posséidon à Woluwe Saint Lambert (unique patinoire en RBC) montre l'intérêt porté par le grand public à ce type d'infrastructure.
